Explanatory Notes:

1. Service charge for technician time is levied for:

- Tissue/ blood collection for genotyping
- Time mating
- Injections or sample collection
- Special monitoring – if required because of phenotype

PRICE LIST

Effective January 2010 – June 2010

2. Rederivation – Includes all costs associated with rederivation up until the progeny are weaned. Health screening costs are additional.

Breeding prior to rederivation attracts standard weekly cage charges.

3. Imports – Additional costs may include:

- Courier + flights
- Shippers + napa nectar
- Charges from exporter
- Health screen (if required- compulsory for mice staying at ABR)
- Import permit – for international imports
- AQIS charges – for international imports
- Weekly cage charges apply

4. Exports – Additional costs may include:

- Courier + flights
- Shippers + napa nectar
- Export permit and AQIS charges- for international exports

B. Price list for mice from core colonies- All prices exclude GST

Notes:

i) Priority is given to supplying Garvan and Partner Institute requirements.

ii) Mice are generally only kept to 8 weeks of age. If you want stock at a specified age beyond 8 weeks add \$1.80/ week to the 8 week age.

iii) A surcharge is added for pregnancy and time mating.
