

Australian BioResources Price List – Effective Jul 2010 – Jun 2011

A. Weekly cage charges and service costs- All prices exclude GST

Item	Partner Institutes	Externals
Weekly cage charge- Cages in use	\$9.05/cage/week	\$10.75/cage/week
Facility access charge- Cage space booked but not utilised	\$6.25/cage space/week	\$0
Service charge -Technician Time	\$36.40/ hour	\$45/hour
Rederivation of mouse line or strain	\$2,288 for up to 5 embryo transfer sessions. Additional \$500 surcharge is levied for difficult lines requiring additional transfers. Maintenance costs of colony and health screening are additional. Indicative costs are below	\$2,515 for up to 5 embryo transfer sessions. Additional \$500 surcharge is levied for difficult lines requiring additional transfers Maintenance costs of colony and health screening are additional. Indicative costs are below
Embryo freezing	\$2,288/ line with test recovery of embryos OR \$2,600/line with test recovery of live pups for lines with good breeding performance. Additional \$500 - \$1,000 surcharge is levied for lines that are difficult to freeze. Provision of minimum stock numbers is required. A charge of \$100/ year is charged for storing 1-5 frozen lines. Annual storage of frozen embryos- \$100/ 1-5 lines	\$2,600/ line with test recovery of embryos OR \$2,910/ line with test recovery of live pups for lines with good breeding performance. Additional \$500- \$1,000 surcharge is levied for lines that are difficult to freeze. Provision of minimum stock numbers is required. A charge of \$100/ year is charged for storing 1-5 frozen lines. Annual storage of frozen embryos- \$100/ 1-5 lines
Imports - National	\$67.50 / shipment plus costs	\$83.20/shipment plus costs
Imports – International	\$312/ shipment plus costs	\$375/ shipment plus costs
Export - National	\$83 / shipment plus costs	NA

Export - International	\$208/shipment plus costs	NA
Shippers - New	\$18.50 Add \$6 / divider and \$10 for international shippers	\$18.50 Add \$6 / divider and \$10 for international shippers
Shippers – Recycled & Sterilised	\$4.00 Add \$2/ divider. Note: Not available for international	Not available for externals
Napa Nectar	\$3.80 each	\$3.80

Explanatory Notes:

1. Service charge for technician time is levied for:

- Tissue/ blood collection for genotyping
- Time mating
- Injections or sample collection
- Special monitoring – if required because of phenotype

2. Rederivation –the standard rederivation fee of \$2,288 for partners or \$2,515 for externals covers up to 5 embryo transfer sessions. An additional \$500- \$1,000 surcharge is levied for difficult lines requiring additional transfers. The rederivation fee does not include colony maintenance costs or health screening. Once progeny generated via rederivation are weaned they will incur a standard holding charge. Indicative costs would be:

Maintenance of colony prior to and during rederivation	\$2,715 (30 weeks holding of an average of 10 cages @ 9.05/cage/week)
Health screening (depending on no. litters)	\$1,200
Total	\$6,203

ABR staff will contact researchers to advise if additional work is required that will attract a surcharge.

3. Embryo freezing- Maintenance of colonies is charged to the researcher until a sufficient number of stock of the correct genotype can be supplied for freezing. Contact ABR for details.

ABR staff will contact researchers to advise if additional work is required that will attract a surcharge.

4. Imports – Additional costs may include:

- Courier + flights
- Shippers + napa nectar
- Charges from exporter
- Health screen (if required- compulsory for mice staying at ABR)
- Import permit – for international imports
- AQIS charges – for international imports
- Weekly cage charges apply

5. Exports – Additional costs may include:

- Courier + flights
- Shippers + napa nectar
- Export permit and AQIS charges- for international exports

B. Price list for mice from core colonies- GARVAN AND PARTNERS - All prices exclude GST

Notes:

- i) Priority is given to supplying Garvan and Partner Institute requirements.
- ii) Mice are generally only kept to 8 weeks of age. If you want stock at a specified age beyond 8 weeks add \$1.80/ week to the 8 week age.

Strain	Price - weeks								
	3	4	5	6	7	8	>8wks	Pregnant	Time mated
