

Ordering Services using StuartWeb

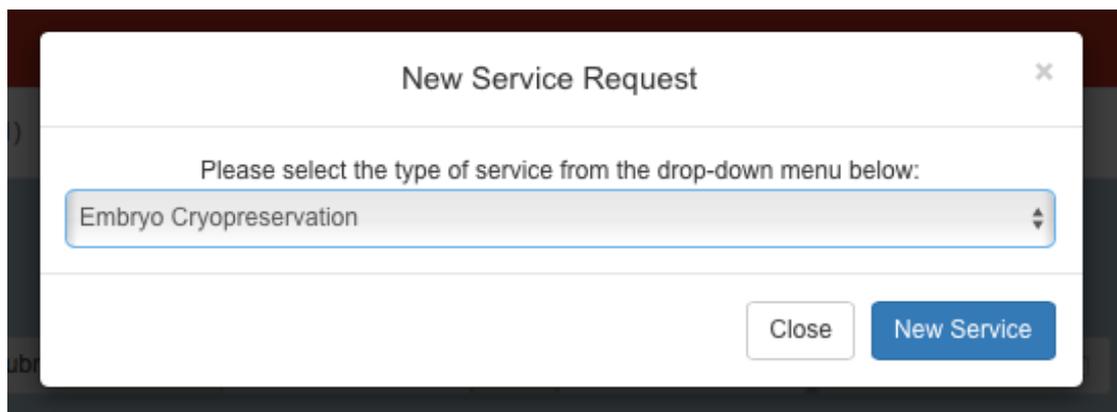

To order services or access information about current services click the *Services* tab on the main menu of StuartWeb.

The *Services* page consists of a section that allows you to search for current, or completed services and a table that shows all current services, their type, status, when they were submitted and the last update. Projects can be sorted using the arrows in the table headings.

ID	Type	Status	Lines	Owner	Submitted	Last Updated
100	Line Information	Pending	Testnewline	Jenny Kingham	05 Jul 2017	05 Jul 2017
99	Transfer between ABR partners or between ABR partner/ Garvan	Pending	BALB/c-Fox1nuAusb	Jenny Kingham	05 Jul 2017	05 Jul 2017
98	Transfer between Garvan researchers	Pending	BALB/c-Fox1nuAusb	Jenny Kingham	05 Jul 2017	05 Jul 2017
97	MEGA Genome editing	Pending		Jenny Kingham	05 Jul 2017	05 Jul 2017
95	Rederivation	Pending	testmouse	Jenny Kingham	05 Jul 2017	05 Jul 2017
94	Rederivation	Pending	BALB/c-Fox1nuAusb	Jenny Kingham	05 Jul 2017	05 Jul 2017
93	Recover Frozen Line	Pups born	BALB/c-Fox1nuAusb	Jenny Kingham	05 Jul 2017	05 Jul 2017

89	Import Frozen Embryos/ Sperm	Pending	jofrozenmouse	Jenny Kingham	05 Jul 2017	05 Jul 2017

To place an order click the **+ New Service** button. A *New Service Request* pop-up screen opens with a drop down list, select the service you require and click *New Service*.

Each service has different sections to complete, however, they all require *Personal Information*.

Each subsequent section is a combination of drop-down boxes where there are limited selections and text boxes for further instructions. Sections that are compulsory and must be filled before the service request can proceed are marked with a *.

Some forms contain sub-fields that require additional information. A blue *Add* button beneath the table for that sub-field indicates these. These sections open in pop-up windows. Once all fields are complete click *Save Changes* to return to the original screen.

The screenshot displays a web form titled "Recover Frozen Line" with the following sections:

- Personal Information:** Fields for Owner (Jenny Kingham), Principal Investigator (Jenny Kingham), Contact Name, Email, Phone, and PO Number/ Garvan Grant ID.
- Line Information:** A table with columns: Line Name, Sperm or Embryo, Background for recovery, Other Comments, and Delete. The table is currently empty, showing "No data available in table". A blue "Add" button is circled in red below the table.
- Breeding Instruction:** Fields for "Will the line be bred and housed at ABR?", Name of facility, Facility address, Contact Name, Email Address, Phone Number, Genotyping of recovered pups, and Comments.
- Terms and Conditions:** A checkbox for "I hereby accept the Terms and Conditions of Supply".

A red arrow points from the "Add" button to a pop-up window titled "Line Information". This window contains the following fields:

- Line Name: C57BL/6JAusb
- Sperm or Embryo: Sperm
- Background for recovery: Background for recovery (with a note: "If sperm is being recovered indicate the background strain of the line. This will be used for IVF.")
- Other Comments: Other Comments

Buttons for "Close" and "Save changes" are located at the bottom right of the pop-up window.

Once all fields and subfields are completed click *Submit*. The project will now appear with a *Service ID* and status of *Pending*.

Researchers can check their projects at anytime by clicking on the *Service ID* number. Project tracking is enabled through the use of *Milestones* and email notifications. *Milestones* and associated comments appear in a table at the bottom of the service screen.

Recover Frozen Line: 93			
Personal Information			
Owner	Jenny Kingham (Garvan)		
Principle Investigator	Jenny Kingham
